The policy comes with a 10% or 15% deductible** and can provide substantial premium savings over similar coverage offered by most insurance companies.

How much insurance do I need?

To determine the minimum amount of insurance you should consider, GeoVera estimates what it may cost to rebuild your home after an earthquake. Additionally, costs are estimated for other structures, contents and loss of use. The amount of insurance we calculate can be increased at your request.

What if I need to file a claim?

An earthquake can strike at anytime. That's why we're proud to offer superior claim service, available to you 24 hours a day, 365 days a year. You can feel comfortable knowing GeoVera is always accessible, especially when you need us most.
